Docket No. AUS920010214US1

ABSTRACT OF THE DISCLOSURE

METHOD AND APPARATUS FOR INCORPORATING SCANNED CHECKS

INTO FINANCIAL APPLICATIONS

An improved method, apparatus, and computer
5   implemented instructions for processing a check in an
automatic teller machine in a data processing system. A
check is received from a user at the automatic teller
machine. The check is scanned to generate an image. A
transaction is performed involving the check. The image
10   is transmitted to a mobile device associated with the
user, wherein the image is in a format for use with a
financial program.
